TRANSITORY RECORD

Hi everyone,  
As you are likely aware, the recent events in Dallas and the police shootings may result in an increased potential for violence in our AOR. At this time, FBI SF has not received any information to indicate that there is a specific threat of violence. If this situation changes and there is a report of a potential threat or violent activity there may be a need for

assistance with [redacted] or other response. Please just keep your phones with you over the weekend in the unlikely event there is a need for ARC assistance.

Thanks,

[redacted]

TRANSITORY RECORD

Change of plans, not going to be put in the SitRep, but per EAD Coleman, in a high side email to the criminal ASACs. But the concept still applies.

FYI, the following language will go in tonight's SitRep. I just wanted to pass this along in case any of your people are collecting information on protests:

Thanks,  
[redacted]

The FBI assesses that violence may occur at Black Lives Matter protests against participants, bystanders or law enforcement. Black Lives Matters protests are protected First Amendment activity, and the FBI may not collect or monitor the exercise of First Amendment protected activity unless for an authorized law enforcement purpose. In order to be clear about the FBI's intent for gathering information relevant to the scheduling of Black Lives Matters protest, please include the following caveat on any documents containing relevant information:

**Individuals or groups named in this [Alert/EC/Briefing book] have been identified as participating in activities that are protected by the First Amendment to the U.S. Constitution. Their inclusion here is not intended to associate the protected activity with criminality or a threat to national security, or to infer that such protected activity itself violates federal law. However, based on known intelligence and/or specific, historical observations, it is possible the protected activity could invite a violent reaction towards the subject individuals or groups, or the activity could be used as a means to target law enforcement. In the event no violent reaction occurs, FBI policy and federal law dictates that no further record be made of the protected activity**
